Zazeeen TV

DISTRIBUTEL
DS-IPTV01 - 20140905

Thank you for choosing Distributel

Please follow the easy steps outlined in this guide. The equipment package you received should contain the following:

- Ethernet cables
- Set top box (STB)
- HDMI Cable (1)
- Power supply (1)
- DIN to RCA Cable (1)
- Power line adapter
- Remote control + AA Batteries (2)
- Equipment letter

You should have 2 Power line Adapters with your first Set Top Box. Any additional Set Top Boxes ordered will each come with one Power line Adapter. Each Power line Adapter will come with one Ethernet cable.

Step 1 Connect to TV

Select one of the following two options.

Option #1 – Connect Set Top Box to Television via the HDMI Cord provided (recommended for best image quality).

Option #2 - Connect Set Top Box to Television via the DIN-to-RCA Cables provided. You should only need to select Option #2 if your TV is an earlier model and/or doesn't have an HDMI port.

Step 2 Connect to a Network

Set-up excluding the Power Line adapters.

Using one of the Ethernet cables provided, connect the Set Top Box's Ethernet port to the Ethernet port of your 4-port modem or 4-port router. (If your television is too far away from, or is not located in the same room as your modem or router, you should Connect using Power Line Adapters. See the instructions in Step 2 (Alternative).

Step 2 (Alternative)

Set-up including the Power Line adapters

1-Using one of the Ethernet cables provided, connect the Power Line adapter's Ethernet port to your modem's (or router's) Ethernet port.

2-Plug the Power line adapter into a Power Outlet. It's important to use a power outlet (using a power bar may not work at all or will degrade the signal significantly).

3-You can now connect the second Power line adapter's Ethernet Port to your Set Top Box's Ethernet port using one of the provided Ethernet cables.

4-Plug the second Power line adapter into the power outlet closest to your TV.

Step 3 Remote Control Set Up

- 1-Open the battery cover and insert the AA batteries.
- 2-Snap the battery cover to close.

3. TV - Select to control TV
 4. STB - Puts remote control in STB mode
 5. POWER - Switches the power on/off for the currently selected device (Switches STB to power on / standby mode)
 6. AUX - Select to control AUX device
 7. REPLAY * - Skips backward 30s of video for VOD / DVR
 8. REW * - Fast rewinds video for VOD / DVR / live TV
 9. STOP * - Stops video for VOD / DVR / live TV
 10. PLAY * - Plays video for VOD / DVR / live TV
 11. Features enabled by service provider (Contact service provider for more details)
 12. OPTIONS - Feature enabled by service provider
 13. ARROW KEYS - Navigates right, left, up, down in the on-screen guide
 14. BACK - Back button for on-screen menu (Enabled by service provider)
 15. VOL +/- - Increases or decreases volume of the currently selected device
 16. GUIDE - Shows the electronic program guide
 17. MUTE - Turns the volume of the currently selected device off
 18. INPUT - Changes the current A/V input of the selected device
 19. FF * - Fast-forwards the video for VOD / DVR / live TV
 20. SKIP * - Skips forward the video for VOD / DVR
 21. REC * - Records live TV
 22. PAUSE * - Pauses video for VOD / DVR / live TV
 23. MENU - Shows the on-screen menu
 24. INFO - Shows on-screen information about the current TV / VOD / DVR program
 25. OK - Executes the currently selected menu option
 26. EXIT - Exits the current menu item
 27. CH UP/DOWN - Changes channel up or down
 28. LAST - Changes channel to the most recently viewed channel
 29. NUMBER KEYS - Allows direct access to specific channels and menu items
 30. CC - Toggles closed captioning on or off
- *DVR functionality including pausing and rewinding Live TV require a hard drive (not provided).

Step 4 Power Up the Set Top Box

Power Supply

1-Connect the power cord to the Power port on the back of the Set Top Box.

2-Plug the power supply into a Power Outlet. The power supply can be connected to the socket of a power line adapter (and then that power line adapter would be plugged into the wall socket).

3-Allow approximately 5 minutes for the Set Top Box to Power Up.

Congratulations

Your Set-Up is now complete!

Please refer to the letter included with your equipment for your Password. You will need this to access the Settings in the Menu Bar.
